

TEACHERS AND STUDENTS TOGETHER IN CONCERT - CCMTA

Purpose:

To provide a performance opportunity for teachers of all instruments and their students to perform together in concert. To help prepare students (both adult and children) for a public performance by performing in an ensemble with their teacher. This event also provides the opportunity for the teacher to perform solo works as well.

Eligibility:

1. No SA membership required.
2. No theory test requirement.
3. Students must be studying with a CCMTA teacher at the time of the event.
4. Teachers may sign up for 2 performing slots which may include: 2 Teacher Solos, 2 Teacher in Ensemble with Students or a combination of both Solo and Ensemble.

Criteria:

1. Students perform an ensemble piece with their teacher. Students do not perform solo.
2. Performers may use music.
3. Selections may be from a church hymnal, published arrangements, a students' own arrangement/composition, or standard repertoire.
4. If a sound track is part of the ensemble, please be sure to bring your own audio equipment.

Total performance time for each selection must not exceed 5 minutes.

Recital Set Up:

Students and teachers are listed in a formal program and perform as in a normal recital. The event will usually take place in a retirement center, and friends and family are welcomed and encouraged to attend.

Registration:

By the deadline listed in the Yearbook, complete and submit to the Recital Chairman:

1. Teachers and Students Together in Concert On-line Registration
(CCMTA.org→Members→Forms → Teachers and Students Together In Concert form).
2. **Specific Instructions for filling out the On-line Registration Form:**
 - A. If you have several students to register, and want to make the registration process as easy as possible -- do the following:
 1. Complete the entire form **the first time** – including your email, CCMTA teacher number, and last name. If you have a last name that is shared by another member, please *always* indicate your 1st initial with the last name. (All other teachers need only to put their last name).
 2. For all other student registrations, teachers need to only fill out their CCMTA number and last name (1st initial, if needed). No need to keep filling out the email address.
 - B. If you make an error, just re-enroll the student again and contact the Chair which entry to delete. You cannot delete or change an entry yourself once you submit it.

3. **If you wish to have a record of your student registrations:** Once you are finished enrolling students, please send an email to the Chair indicating you would like a spreadsheet. The Chair will then within 24 hours send you a spread sheet of your registration information. It is the teacher's responsibility to ask for this because it is not apparent on the big spreadsheet who has and has not received a record of their registrations. Please be patient with the Chair, as this is a big job.
5. There is no charge for this event.

Coda:

This is a "Feel Good" event! Students and Teachers as well as the audience thoroughly enjoy this performance!
